EXPERIENCE

AUDIBLE | PRODUCT MANAGER - CONTENT SYSTEMS

June 2019 – Present | Newark, NJ

- Led product strategy and owned roadmaps for Audible's Content Systems, including internal and external products supported by over 40 engineers across 4 development teams
- Envisioned and oversaw execution of Audible's first fully automated content delivery pipeline to successfully meet Amazon D-Team goal
- Managed integral product for independent creators during COVID-19 that saw >400% YoY increase in new user registration
- Coordinated with Product and HR leadership to develop Audible's first Product Management Intern program, which launched successfully in summer 2019

INFOBASE | PRODUCT MANAGER

February 2015 – May 2018 | New York, NY

- Oversaw agile development of multiple products including an educational video streaming platform with tailored market solutions
- Developed opportunity, received investment, and managed development for Universal Admin Portal
- Charged to develop roadmap following acquisition of Learn360; evaluated needs, developed integration strategy, and attained approval at executive levels; successfully migrated 1M+ users at 10K+ institutions
- Launched MARC record utility, reducing customer wait time for content metadata records from 45 days to less than 24 hour, removed dependency on 3P vendor

IJD | INDEPENDENT BUSINESS CONSULTANT

June 2010 – August 2016 | Carmel, CA & New York, NY

- Partnered with small business and NGO clients to understand organizational goals and implement digital transformation projects
- Led engagements throughout life cycle, including negotiation, solutions strategy, implementation, and relationship management
- *Select Engagements:*
 - Reduced scheduling department overhead by 65% for service business by redesigning procedures and calendar system
 - Developed online strategy for health education nonprofit, including technical implementation and staff training

EDUCATION

CORNELL TECH | JOHNSON CORNELL TECH MBA
